

ACADEMIE INTERNATIONALE  
DE LA CERAMIQUE

INTERNATIONAL ACADEMY  
OF CERAMICS

Geneva, 25 January 2024

Dear Organising Team of the Indian Ceramics Triennale,

On behalf of the International Academy of Ceramics, I would like to offer my sincere congratulations on the opening and success of the 2024 Indian Ceramics Triennale "Common Ground".

It is a real pleasure to see such a well thought out and rich event come to fruition, which not only includes high quality exhibitions but also a rich programme of conferences. Your inclusion of workshops alongside the lectures and symposium creates an ideal balance between the issues discussed and practical applications.

I am particularly impressed by the spotlight on IAC members in the exhibition "*In Transit: Members of the International Academy of Ceramics at the Indian Ceramics Triennale*". What an amazing opportunity you have created for our members, not only to participate in such a global event, but also to travel and learn from the national ceramic culture.

Congratulations on your incredible work and success! As President of the IAC, I thank you for this important contribution to the world of ceramics today and look forward to witnessing future editions in the years to come.

Sincerely,

Torbjørn Kvasbø  
President of the IAC
